Motion Capture System

SMART DX is our optoelectronic systems product line designed to satisfy all motion analysis requirements in clinical, sports and industrial fields. All models use digital cameras equipped with powerful infrared illuminators to guarantee exceptional performance even in the most adverse conditions.

## Huber Motion Lab

The Huber 360 is an innovative solution that can improve neuromuscular control and overall performance by training the four fundamentals of movement: posture and balance, flexibility and mobility, resistance and dynamic reinforcement. The device offers targeted exercises to increase the user's range of motion, coordination of movements, strength, resistance and balance. Training with Huber 360 also improves the user's BMI and cardiovascular health.
